

## About Us

We are a high performance software development house based in south east of England utilising the skills and experience gained in biometric systems, RIA and ecommerce technologies. Established in 2001, we have a strong reputation for producing high performance softwares and systems with guaranteed customer satisfaction. We have an extremely dedicated team that ensures the software you really need. We also have a proven track record of successfully delivering IT solutions across a broad range of industries throughout the UK and abroad.

We are a company that can be relied upon to deliver, on time, the service and software that our clients actually need; a company for whom the best strive to work. To meet this goal we always put our clients first and always exceed their expectations. We always strive to provide a cost effective business solutions, gaining your trust and continually exceed your expectations.

Built upon a platform of quality and success:

- Plan and deliver software solutions to Medium Enterprises (SMEs), large corporate organisations as well as secure government environments and charities
- Design and implement business critical solutions across the public and private sector
- Provide comprehensive IT services across a broad range of organisations
- Altobo technologies has an overriding commitment to providing a quality, customer focussed service. We always strive to provide a cost effective business solutions, gaining your trust and continually exceed your expectations.

At Altobo, we regularly enhance and upgrade our process and in doing so promote 4 key principles:

- Thorough requirements capture
- Effective pre project planning
- Minimised disruption to your organisation during implementation
- Maximised business return on your IT investment
