

## The Company

We are a high performance software development house based in south east of England utilising the skills and experience gained in biometric systems and ecommerce technologies. Established in 2001, we have a strong reputation for producing high performance software and systems with guaranteed customer satisfaction. We have an extremely dedicated team that ensures the software you really need. We also have a proven track record of successfully delivering IT solutions across a broad range of industries throughout the UK and abroad.

We are a company that can be relied upon to deliver, on time, the service and software that our clients actually need; a company for whom the best strive to work. To meet this goal we always put our clients first and always exceed their expectations.

We are really proud of the software we develop and even prouder of the team who work so passionately to produce it. For us, it's not just about meeting expectations, but exceeding them. In fact, our dedicated team wouldn't settle for anything less- From first contact through to final delivery; we strive for excellence every step of the way.
